M. HASSAN ALI,
for *Dy. Comr., Treasury Dept.*

IN THE COURT OF THE MUNSIFF OF HONNALI.

Miscellaneous Case No. 369 of 1903-04.

In the matter of the application of Shanbhog Nilakantappa, son of Bhimappa, residing at Mayakonda, Davangere Taluk, praying to be declared an Insolvent.

The above application coming on for hearing before P. A. Sivaprakasam Pille, Esquire, Munsiff, in the presence of Messrs. J. Subba Rao and Narasimiengar, pleaders for the petitioner and the 1st counter-petitioner respectively, the other counter-petitioners, *viz.*, 2. Anantha Sastri, 3. Tippey Rudrappa, 4. Balaygar Malakappa, 5. A. Paradesappa, 6. D. Guruvenkatachar, 7. Mysore Rangappa and 8. Jamadar Krishna Rao, having become absent in spite of service, it is hereby ordered that the said Shanbhog Nilakantappa be declared an Insolvent and that Sitharama Rao, the Deputy Nazir of this Court, be appointed a receiver of the Insolvent's property.

Given under my hand and the seal of the Court this 7th day of April 1904.

P. A. SIVAPRAKASAM PILLE, *Munsiff.*

WATER SUPPLY AND STORES DIVISION.

The 10th April 1904.

1. Notice is hereby given that sealed tenders will be received at the office of the Executive Engineer, Water-supply and Stores Division, up to 25th April 1904, for supply of fuel jungle or casuarina or both to the Pumping Station at Soledevanahalli and Bethamangala. An approximate estimate of quantities is given in specification. These quantities are not guaranteed. The work should be completed by the end of March 1905.

2. Conditions may be obtained at the Executive Engineer's office at Bangalore between the hours of 11 A. M. and 5 P. M.

3. Tenders should be submitted on printed forms which may be obtained from the Executive Engineer. The tenders should be accompanied by a statement in the form given below, showing the rates at which the different items specified will be executed.

4. Each tender must be accompanied by a deposit of Rs. 1,500 in cash or Government Promissory Notes, as earnest money, and be superscribed "Tenders for supply of fuel" in default of which, tenders will be rejected.

5. The first acceptance of any tender will rest with the Chief Engineer, who does not bind himself to accept the lowest or any tender or to assign any reason whatever for the rejection of any tender.

6. Within eight days of the acceptance of the tender, the successful competitor will be required to execute the usual contract bond; in default of which, his tender will be considered cancelled, and his earnest money will be forfeited.

7. The name of the successful competitor whose tender has been accepted will be posted on the notice board in the Executive Engineer's office in due course. No enquiries regarding the acceptance or rejection of a tender will receive any reply.

8. On acceptance of one of the tenders, the earnest money on rejected tenders will be returned.

Description of work.	Unit of work.	Rate per unit.
Jungle fuel	Per ton.	
Casuarina fuel	Do	

Note.—Parties may tender for one or for both (the stations) either as separate contracts or as one contract and one rate for both the places.

Specification for Jungle fuel.

The maximum and minimum dimensions which will be accepted are given below :—

Length.		Thickness.	
Max.	Mini.	Max.	Mini.
24″	18″	7″	3″

The billets are to be sawn and not chopped. Billets of over 7″ diameter to be split.

The wood to be stacked by the contractors in the portions approved of by the Executive Engineer or his representatives.

Stacks must be of rectangular shape. The sides being vertical and straight and the top level, the wood must be laid evenly straight and close, the pieces composing the walls must be laid at right angles to the direction of such walls having first been sawn to an uniform length as above. The interior of the stacks must be packed as closely as possible, the pieces being regularly laid with their lengths all in one direction which leave no vacant space.

The stacks to be built of such dimensions that the cubical measurements of each is a multiple of 68 cubic feet.

17 ft. × 8 ft. × 5 ft.=680 ft.=10 tons.
17 ft. × 16 ft. × 5 ft.=1,360 ft.=20 tons.
34 ft. × 20 ft. × 5 ft.=3,400 ft.=50 tons.

Sixty-eight cubic feet of closely packed wood will be accepted as equivalent to one ton.

The Executive Engineer or his representatives will inspect the wood as it is bring stacked and shall have power to reject any pieces that are hollow, rotten or otherwise unsuitable for fuel for engines; he will also satisfy himself that the pieces are in accordance with the dimensions specified above, and that the stacks are built as required. He shall also have power to reject any stacks which do not in all respects comply with the terms of this specification.

The wood must be at the risk of the contractor until it is stacked, measured and accepted by the Executive Engineer or his representatives.

When stacks are taken over, the contractors or their representatives must be present during the measurement and must sign the record of measurement in token of his agreement to the correctness thereof.

Soft woods unsuitable for steaming purposes will not be accepted.

Jalee, tholegala, devadaree, hunse, chigare, heddarne, gorve and other equally hard woods will be accepted. Any wood other than those specified above and which the contractor would like to supply may be supplied after they have got the previous approval of the Executive Engineer or his representatives. A cart load of the proposed fuel to be brought in first. When the same will be tested and if suitable, the contractor will be given permission in writing to collect such wood also in addition to the list of the wood already approved of.

Specification for Casuarina fuel.

The wood to be in straight lengths.

The maximum and minimum dimensions which will be accepted are given below :—

	Length.		Thickness.	
	Max.	Mini.	Max.	Mini.
